VANILLA SPOT 7 ⓔ ETL us Intertek

SPOT 7

The Vanilla Spot 7 is an alternative multi-chip LED configuration with distinctive aesthetics, using quad-color LEDs for superior color mixing directly at the lens. The efficient combination of powerful RGB+W (3000K or 4000K) multi-chip LEDs and unparalleled optical lenses, deliver seamless light distribution and smooth color transitioning. Featuring a lightweight and compact body, printed front glass and no visible screws, the Vanilla Spot 7 offers a variety of finish options. Along with this a variety of accessories are available to further increase the versatility of the product. (IP67)
